

OIMR CENTER

Started the name with Marine Offshore Hub, OIMR Center is a dedicated Offshore Inspection, Maintenance & Repairs Center located within Bulk & Breakbulk Terminal, Johor Port Berhad. OIMR Center offers a comprehensive scope of services and facilities to the Oil & Gas Industries ranging from manpower mobilization, maintenance and repair works as well as integrated suite logistics solutions via its one stop center.

OIMR Center is managed by Johor Port Berhad & KTMB MMC Cargo, Malaysia's leading multi-purpose port operator and is staffed by highly trained personnel with wide industry experiences from the offshore Oil & Gas and Marine Service sector. OIMR Center has full support from Marine Service Department, Johor Port Berhad as well as Free Zone.

Facilities provided able to attract new, high-value add activities within Offshore and Marine sector and meet the needs of existing customers and have a suitable facility available to maintain vessels/rigs in the best possible way. Combination of experience, expertise, and a wide-range of assets, OIMR Center is able to deliver professional, safe and cost effective solutions to clients in Oil, Gas and Renewable Energy sectors world-wide.
